

Early Call for Scientific Submissions

Conference Theme: The theme for the 2019 symposium is “Kick and Run, Football and the Lower Extremities” however, submissions may be in any of the categories listed below.

Categories: Authors are invited to submit abstracts describing their original research in sports related topic areas:

- Basic Science (eg, biomechanics, physiology)
- Clinical (eg, clinical trials, observational clinical research)
- Literature reviews (eg, systematic reviews)
- Cases (eg, report of single or multiple patient cases)
- Other (eg, epidemiology, population studies, practice analysis, etc.)

Evaluation: All submissions will be evaluated by the peer review committee based upon the following criteria:

- Originality and/or innovation
- Quality of the project as written and interpreted
- Significance
- Clarity
